BOBLE

Unique for its red-bronze colour effect, the Boble fire bowl is a real eye-catcher in the garden. No worries about safety because the fire bowl stands stably on three legs and comes standard with a spark screen that stops sparks. Light the fire bowl and watch its appearance change. A unique lacquer will discolour the fire bowl and give it a bronze look. You will keep looking at it!

KVADRAT

Feel free to gather around the Kvadrat fire bowl and enjoy the light, warmth and atmosphere of the fire. With a built-in spark screen, sparks are kept out. Place the fire bowl on the terrace or in the garden and experience stability thanks to its four legs. After use, simply tidy everything up with the shovel and you can use it again immediately afterwards. The unique shape and design make this fire bowl an eye-catcher in any garden.

FRESVIK

The HEAT Fresvik is a sturdy fire bowl with an open base. The fire bowl has a diameter of 80 cm that allows you to make a substantial fire. The open base can be used to store wood or a small pan to make popcorn over the fire. The wood storage is spacious enough and easily provides you with enough firewood for the whole evening. Thanks to the open character of the Fresvik fire bowl, you can feel the heat all around and the fire can easily be topped up. All in all, the Fresvik is a modern fire bowl and mood creator for any garden.

FIREDRUM

The HEAT Outdoor Living Fire Drum is a stylish round fire basket that is equipped with small holes all around so that you have a cosy view of the moving flames and are not bothered by fire particles jumping around. The design is based on the old-fashioned washing drum that was sometimes used by hobbyists to make their own fire basket. The HEAT Fire Drum has a large opening at the top through which the firewood can pass. The grilling grid supplied can also be placed on this opening so that you can grill a delicious piece of meat or fish on a pleasant summer evening. The grill grid can be removed with the tools that are included with this fire basket. The Fire Drum is made of black powder-coated steel and stands on three sturdy legs.

SKU FP.006

FIREPT'S

3IN1

Are you looking for a special fire basket? Then this HEAT fire basket 3-in-1 is probably exactly what you are looking for! This multifunctional fire basket is extremely practical! This fire basket can also be used as a barbecue and side table. If it cools down during the evening, you can easily remove the wooden top and light a fire. Or you can start the evening by grilling a piece of meat and end it by burning some fire logs....

The 3-in-1 fire basket is available in metal and comes with a grill grid, ground grid, wooden board, sparkscreen, shovel and poker.

SKU FP.004

61 x 61 cm x H 67 cm
Powder-coated metal

ALNA

The HEAT fire pit Alna is a cheerful fire pit with all-round views of the fire. With an ornate floral pattern, the garden gets a cheerful look and the fire pit matches the cheerful plants and flowers. The open character all around allows the fire to be seen and spreads the light and warmth of the fire through the garden. With a diameter of 60 cm, the fire pit is easy to place in various environments and can also be easily stored. Standing on three stable legs and supplied with a spark cover as standard, you can safely sit around the fire pit. The Alna fire pit is thus a nice addition to any garden.

SKU FP.012

Ø 60 cm x H 50 cm
Black steel

KAPPA RUST OR BLACK

A unique insight into the Kappa fire pit. On a three-legged base, the fire basket stands at a cosy height for the garden. With a unique option to position the fire pit at an angle forward or flat, the Kappa fire pit actually gives you two fire pits in one. Assemble in just a few steps and enjoy hours of warmth and atmosphere.

TYNSET

The HEAT Tynset is a sturdy and unique fire pit. With a diameter of 48 cm, the fire pit is spacious for fine company and can also be easily stored. The handles on the fire pit make it easy to move the fire pit to the desired spot. Be amazed by the changing colour of the fire pit. Due to a special coating, a bronze colour will emerge while using the Tynset and give it a classic look. The Tynset is easy to pick up and makes every evening outdoors cosy.

SKU FP.009

Ø 48 cm x H 54 cm
Black steel with bronze-effect

FIRECASK

The fire basket Firecask is a classic fire basket with diagonal bars and mesh all around. This gives you a beautiful view of the moving flames and allows you to optimally enjoy a pleasant warmth. Especially at twilight it gives a beautiful effect. Because of its special design, this fire basket is also a decorative object in the garden when not in use.

SKU FP.005

Ø 42 cm H 53 cm
Bronze-effect steel

HORNSET

The HEAT fire pit Hornset is a sturdy specimen for the garden. With an open yet unique pattern of flames, you can clearly see the fire. The flame pattern gives a cool look to the fire pit and matches the fire inside. Stable on three legs, you can place the fire pit anywhere in the garden. Are you fond of grilling? That's possible too, with the included grill grate you can make the tastiest snacks from the grill in no time. Stoke up the fire even more and use the spark screen to prevent sparks from flying around. The Hornset is a fine fire pit to sit around all evening and enjoy the dancing of the flames.

LARVIK

The popular HEAT Larvik patio fireplace is a beautifully designed patio fire that provides warmth in your garden. The Larvik, with a diameter of 45 cm, is made of powder coated metal and is therefore weatherproof. The terrace fireplace is also equipped with a handy storage compartment for logs. Not only pleasing to the eye, but also very practical. No more running up and down with logs. The chimney ensures that the smoke is discharged perfectly and is equipped with a rain cover which prevents rain getting in. The removable ashtray makes it easy to remove ash and wood residue. In short, you will enjoy this modern terrace fireplace!

OSLO

The HEAT Terrace Fireplace Oslo is a stylish and modern terrace fireplace. Because of the sleek design, this garden fireplace is an addition to any garden.

The Oslo has a square model that tapers. This gives the fireplace a good appetite. The steel fireplace is welded through and through and can therefore take a beating.

The patio fireplace Oslo is equipped with a handy storage compartment for logs. This is not only fun for the eye, but also very practical. In short, you have with the garden fireplace Oslo a very cozy patio heater that will not be out of place in any garden.

SKU CH.006

Powder-coated metal

HAMAR

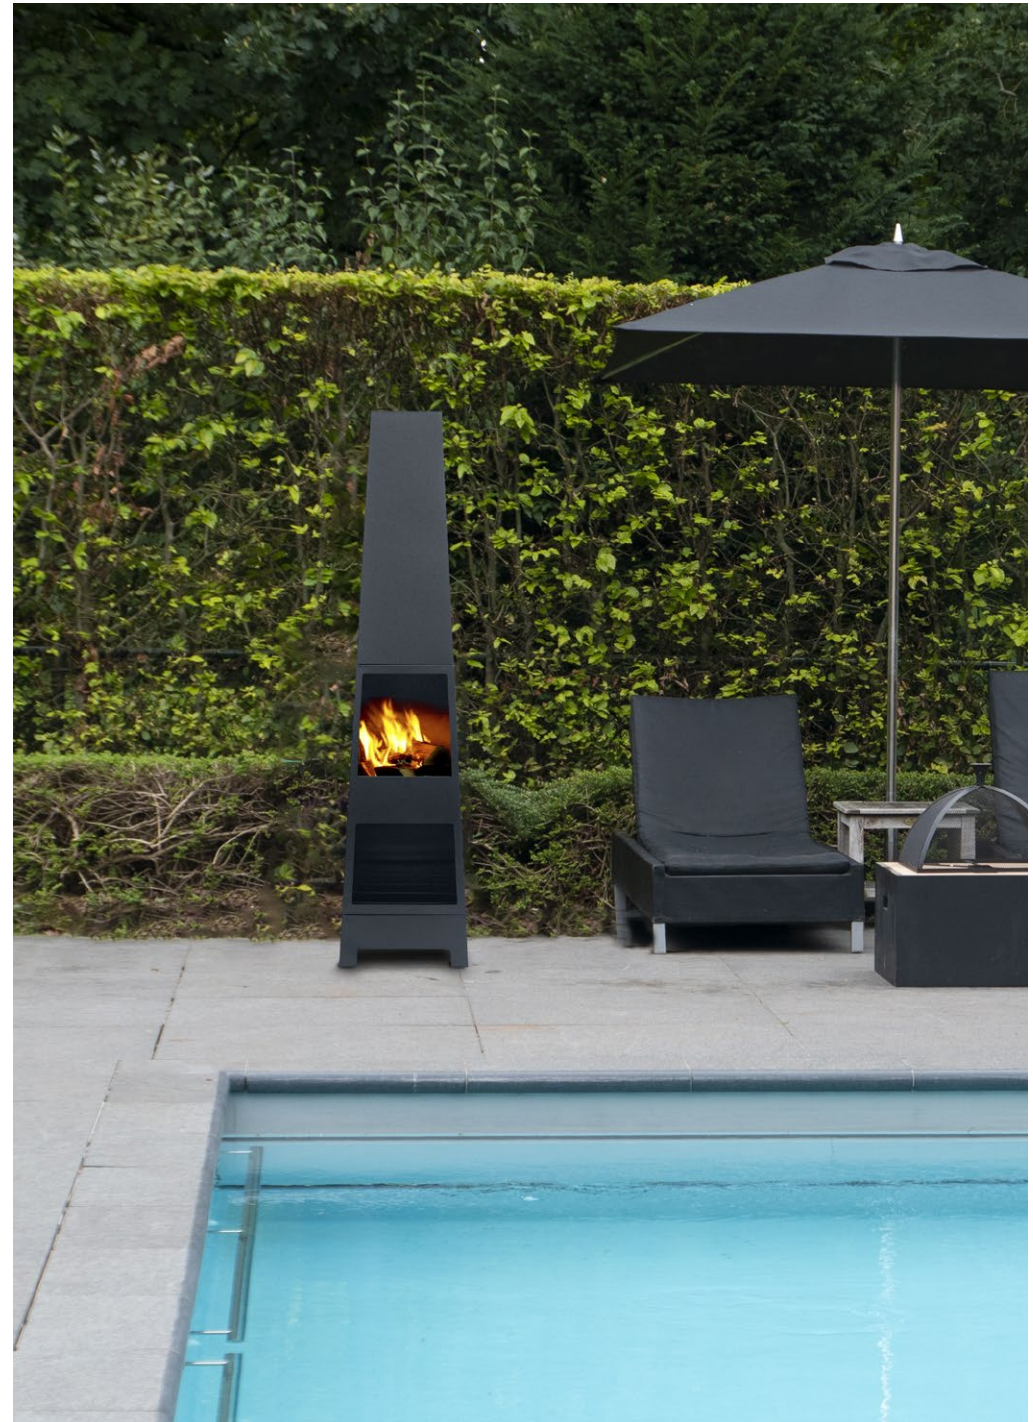

This terrace fire extends your summer evenings and allows you to enjoy a wonderful, crackling fire time and time again.

The terrace fire is black in colour and made from powder-coated metal. This material is durable and can take a beating. The small door with mesh in front of the opening of the fireplace keeps the flames out of reach of children and reduces the risk of sparks flying around.

The extended chimney means you will not be bothered by smoke on your terrace. At the bottom of the fireplace there is a storage place for firewood so that you do not have to constantly walk up and down to the wood storage place!

SKU CH.007

Ø 45 cm H 158 cm
Powder-coated metal

OVNHUS

The Ovnhus is a complete pizza oven for your garden. With the pizza stone, you can bake the crispiest pizzas from your own oven. Light the fire under the oven and let the oven get up to temperature. With the thermometer on the front, you can keep an eye on the temperature in the oven to achieve the perfect result.

PENTAL

The HEAT Pental is a versatile fire bowl on legs. The set consists of a spacious 76 cm fire bowl with a pulley and grill construction. The fire bowl stands on legs and has a total height of 136 cm. This is a perfect height for both standing and sitting grilling on the grill. Thanks to the pulley, the grill grate can be hung at the right height to make immediate use of the grill.

BAKKA

With the Bakka barbecue, you bring a fully equipped cooking unit into your home. The built-in grill offers a versatile cooking space on which you can effortlessly prepare tasty steaks, juicy burgers, grilled vegetables and much more. Thanks to its clever design and materials, the grill maintains the optimal temperature for perfect cooking.

GYSTAD

The HEAT Gystad fire pit is a versatile fire pit. With the plancha baking plate, you can prepare the tastiest dishes. In addition, the grill in the middle makes it easy to place pans directly over the fire. The height of the Gystad allows you to enjoy the fire and prepare your favourite dishes or snacks right next to the garden bench.

KJOK

The Kjok outdoor kitchen is a compact and complete outdoor kitchen. With two handy side shelves of 30 cm each, you have enough space to prepare something small or make plates here. With two spacious storage compartments, you will always have the right tools to hand and, with sufficient firewood, you can keep the barbecue burning all evening.
